

To Whom It May Concern:

I'm writing this letter to recommend the tax recovery service provided by the Utility Audit Company, Inc. UAC researched our utility and telephone accounts for unnecessary taxes. They recovered the taxes from the past and stopped them for the future. The refunds and credits were a welcome addition to our bottom line.

I found UAC extremely easy to work with and a minimum of time was required from me and my staff. UAC handled the entire process from start to finish. Since they are only paid based on the amount of tax they recover, it was a win-win situation for our hospital.

In the current economic climate, with charitable contributions diminishing, UAC helps replace some of those lost dollars. I'm pleased to recommend UAC to other organizations that may also have taxes hiding in their utility and phone bills each month.

Sincerely,

Paul Aasen
